

# REVITALIZE YOUR PLACE.

## Why use Renew over new cabinetry?

On refaced cabinets alone, you can save around 20% versus all-new cabinets. Plus, create extra savings by keeping other components like flooring, appliances and countertops.

You'll get the look of new cabinets, without the full cost of new cabinets. With a remodeled kitchen, the appearance and value of your home increase.

Home remodels can be frustrating. With Renew, you'll see less disruption and quicker completion since your appliances and cabinet boxes can stay in-use while you wait for your new doors and finishes.

Renew is more green-friendly than new cabinets because you're keeping your existing cabinet boxes out of the landfill.

Do you already have a functional layout? Keep it! You can add cabinets to your job to make an island or other various storage solutions.

Unlike refacing-only competitors who have a limited selection of finishes, with Renew, you get to choose from almost all of Showplace's custom finish options.

By using us instead of the other guys, you receive our limited lifetime warranty!

Showplace Cabinetry has been manufacturing semi-custom cabinetry since 2000. In 2008 we expanded our lineup to offer Renew, our refacing option. We knew customers were looking for another cabinetry option that provided higher-end materials, door styles and finish options at a more affordable price.

Most cabinets can be refaced using Renew. The biggest thing to consider is whether your existing cabinet boxes are structurally sound. From there, if the basic layout of your kitchen meets your needs, you can likely get a Renew kitchen!

# REVITALIZE YOUR PLACE.

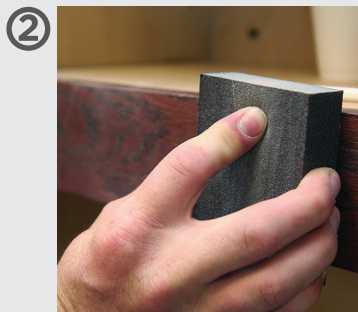

When you reface with Renew, your old cabinet doors go away. You get a limited lifetime warranty with entirely new doors and drawer headers. You also get quality veneers finished to match, applied directly to the face frames of your existing cabinets. Any external part of a cabinet gets a fresh face.

With Renew refacing you do have the option to add completely new Showplace cabinets and accents to your design. Add a new island or peninsula. Add a hardwood range hood. You can add new hardwood drawer boxes or roll trays, with top-quality glides. No matter the extent of your project, Renew can provide creative freedom at an affordable price in four easy steps.

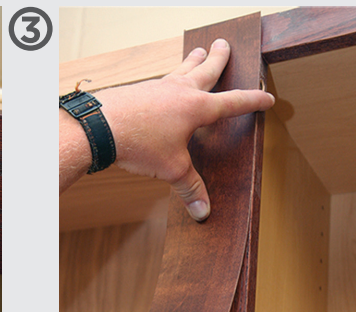

## Steps of Renew:

Remove Your Doors and Drawers

Thorough Sanding

Trim and Add Veneers

Install New Doors, Hinges, Drawers and Other Components
